00 PROFILE

Technical Product Manager with a strong software engineering foundation. Bridges business strategy, user discovery, and technical execution. Experienced in scoping ambiguous business domains into production-grade systems, translating user pain points into precise functional specifications, and aligning cross-functional teams across engineering, UI/UX design, and operations.

01 EXPERIENCE

Founder & Product Lead — 2024 — PRESENT

Manova — Remote

- Spearheaded product vision and technical roadmaps for Manova platform toolkits, reducing client time-to-market by 4x.
- Conducted user workflow discovery for AI engineering bottlenecks, directly driving the requirements and delivery of Promux.
- Orchestrated sprint cadences and release milestones across web portals, Telegram client interfaces, and developer tooling.

Technical Product Consultant — 2023 — PRESENT

Independent / Enterprise Clients — Tehran

- Mapped legacy jeweler OTC settlement habits into Goldstein's digital multi-tenant UX with dual-currency (Rial/750-Gold) accounting.
- Led UI/UX design of high-speed counter desk interfaces, cutting transaction input time by 60% for non-technical retail staff.
- Scoped and delivered restaurant inventory MVP from stakeholder interviews to production rollout across multiple branches.

Head TA & Course Coordinator — 2023 — PRESENT

University of Tehran — Dept. of Science — Tehran

- Manage cross-functional TA team of 15 members; define semester roadmaps, assignment delivery schedules, and evaluation standards.
- Analyzed student performance metrics to continuously refine problem difficulty curves and enhance learning outcomes.

Backend & Systems Engineer — 2021 — 2023

LvtGames — Remote

- Partnered with game designers to translate gameplay mechanics into backend contracts and database schemas.
- Synthesized player telemetry data to guide feature prioritization and gameplay retention improvements.

02 NOTABLE WORK

Promux ↗ — Go · CLI · AI Systems

High-availability multiplexer for agentic AI CLIs with dynamic failover.

Identified account quota exhaustion as a primary bottleneck in agentic engineering workflows. Scoped and shipped a robust CLI utility that solved downtime for development teams.

Manova / Orbit Platform ↗ — TypeScript · Go · PostgreSQL · Edge

Composable foundation toolkit for rapid production-grade software delivery.

Spearheaded internal platform-as-a-product strategy, packaging recurring client backend requirements into reusable modules to slash delivery lead times.

Dorost ↗ — Typst · Open Source · Design System

Open-source bilingual document composition package for Typst.

Identified the lack of modern bilingual document tooling; designed user-centric APIs and comprehensive documentation for academic and industry adoption.

03 SKILLS

PRODUCT STRATEGY	User Research & Discovery · PRD Authoring · Roadmapping · Jobs-to-be-Done · MVP Scoping
TECHNICAL BRIDGE	System Architecture · API Contracts · Data Modeling · Technical Trade-off Analysis
DESIGN & UI/UX	Design Systems · Figma · Information Architecture · WCAG Accessibility · Tailwind
EXECUTION	Agile & Sprint Cadence · Stakeholder Management · Release Governance · Telemetry & Metrics

04 EDUCATION

B.Sc. Computer Science — 2021 — PRESENT

University of Tehran — Faculty of Science

Head Teaching Assistant for Advanced Programming · Focus on Systems & Software Engineering
